## ELD Go Live Checklist

### Ready. Set. Go live with your ELD.

With this checklist, you can feel confident that you've checked all the necessary steps to get your fleet ready for the ELD compliance date and beyond.

#### Are your EROAD ELDs installed and working properly?

Check out EROAD's Installation Manual for step by step instructions and tips.

Please review the [EROAD Installation Guide](#)

- Run the Install Wizard and confirm the ELD has proper connection to the ECM.
- Installed using the correct wiring cable compatible with your vehicles.
- Ensure there are no data diagnostics or malfunctions appearing on the device.

#### Are your drivers ready?

Check out our quick and helpful ELD Setup & Training materials, such as training videos, webinars and presentations, tailored to support drivers get up and running on ELDs.

Go to the [Setup & Training](#) section on EROAD Help Site for more info.

- Set up and provide drivers with individual log in details.  
Go to the [Driver Profile](#) section on EROAD Help Site for more info.
- Train drivers on how to use an ELD and carry out roadside inspections.  
Go to the [ELD training videos](#) on EROAD Help Site for more info.
- Provide drivers with four in-cab materials:
  1. EROAD ELD User Manual
  2. Roadside Inspections Visor Card
  3. Malfunctions Visor Card
  4. Blank paper logs for drivers to use (at least 8 days in case the ELD malfunctions)

#### Are your support users ready?

Check out our rich library of helpful information around the ELD system for your support users.

- Set up and assign suitable access level to your support users.  
Go to the [Roles and Permissions](#) section on EROAD Help Site for more info.
- Train support users on how to manage driver logs on the Depot system.  
Go to the [Overview](#) section on EROAD Help Site for more info.
- Train support users on how to manage unidentified driving trips.
