EROAD

## Enabling the Oilfield Exemption in Depot

Learning Objective

In this lesson, you will learn to:

- Enable the oilfield exemption in Depot

EROAD ELD – Oilfield Exemption Feature

- Drivers can manage their electronic records with EROAD's oilfield operations exemption after it is enabled in Depot, which:
  - Provides a 24-hour reset instead of a 34-hour reset
  - If used, the off-duty waiting time exemption:
    - Extends the 14-hour driving window period
    - Minimizes the HOS impact on wait time

Enable the Oilfield Exemption in Depot

Back office staff perform the following steps to enable the oilfield operations exemption in the Depot application.

1. Click the **Driver** menu.

2. Click a driver's **name** in the Drivers list.

Note: *The driver's profile automatically opens on the right side of the screen.*
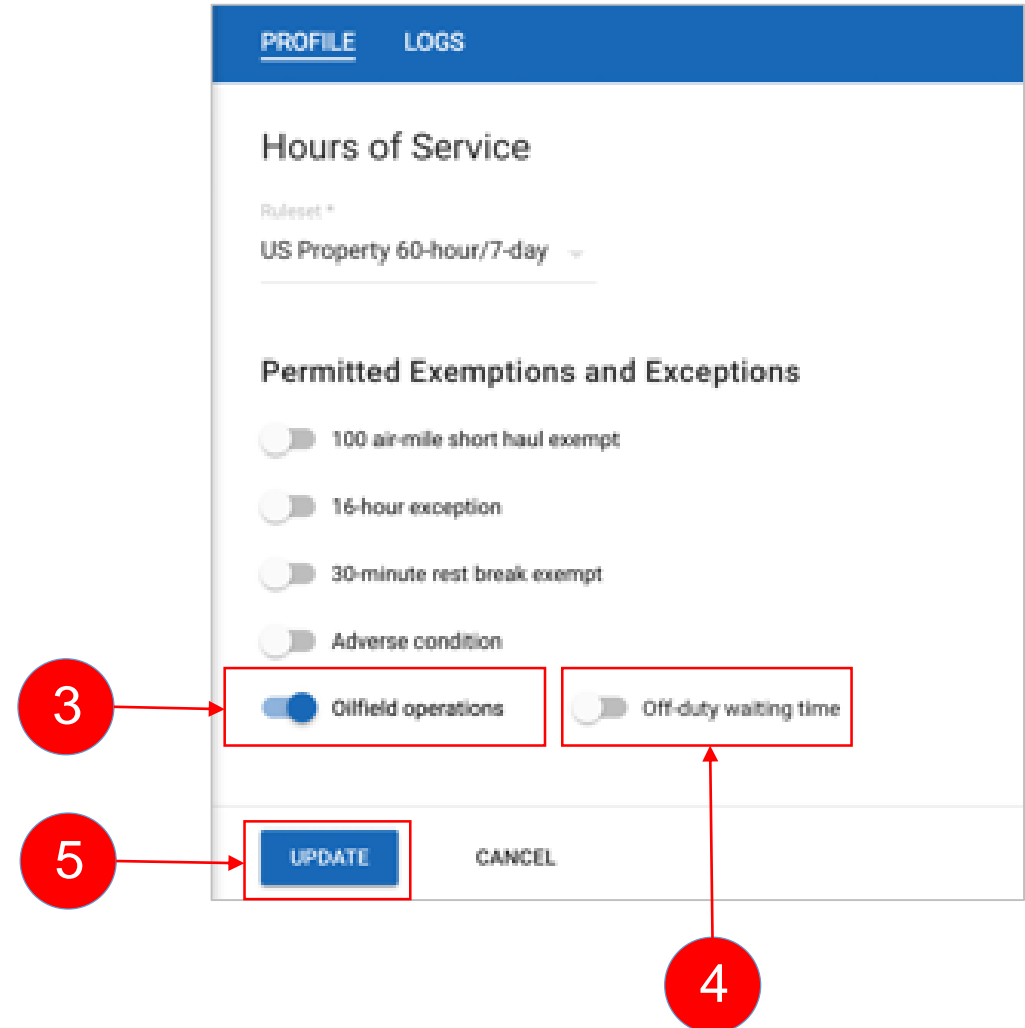

Enable the Oilfield Exemption in Depot (continued)

3. Click the right side of the **Oilfield operations** toggle button. The button turns blue when the exemption is enabled.

4. (optional) Click the **Off-duty waiting time** toggle button, if it is applicable to your operations. *Note: This option must be enabled if you want drivers to use the OFF WT duty status.*

5. Click the **Update** button to save the change(s).

Repeat these steps in each driver's profile, as applicable.

Summary

In this lesson, you:

- Enabled the oilfield exemption in Depot

THANK YOU
