

EROAD

Depot Overview

eroad.com

Learning Objectives

In this training session, you will:

- View how the ELD interfaces with Depot
- View the Depot menu structure

EROAD ELD Architecture

- EROAD ELD:
 - Captures vehicle operational data via the ECM link
 - Captures Global Positioning System (GPS) location data
 - Transfers encrypted data via the cellular network to the Depot application
- EROAD Depot is accessed through a web browser for the carrier to set up and manage driver's ELD data

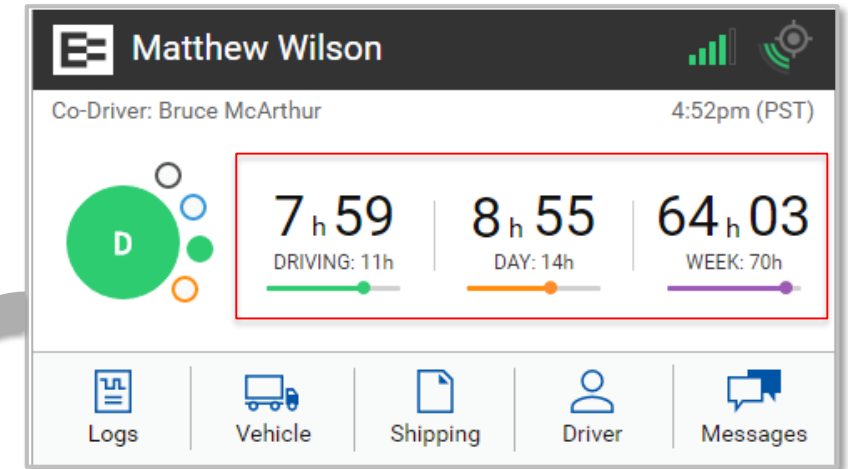

Data Capture and Depot Interface

EROAD ELD enables users to:

- Capture duty status
- Monitor HOS counters
 - ELD displays 11-hr driving limit, 14-hr on-duty/driving window, and 70-hrs/60-hrs duty cycle
 - Depot displays 14-hr on-duty/driving window, 11-hr driving limit, and 70-hrs/60-hrs duty cycle
- Manage HOS violations
- Resolve Issues and Malfunctions
 - Drivers should first contact their motor carrier
 - Carriers should contact EROAD to resolve malfunctions within eight days

ELD Device

ACTIVITY TAX SERVICE DRIVER

Vehicles Drivers Geofences

Driver Search All Drivers

Duty Status	Driver Alias	Driving Window Left	Driving Time Left	Duty Time Left (hh:mm)
	B.Driver	14h:00m	11h:00m	70h:00m

Depot Application

Depot – Menu Overview

The following is a brief description of each menu:

- **Activity Menu** – View a list of vehicles and access unit details, activity, messages, and gateway information; view a list of drivers and current details; view a list of geofences
- **Tax Menu*** – View IFTA, Weight Mileage, RUAF Mileage, and IRP information, as applicable to your organization
- **Service Menu** – View vehicle service information including scheduled or completed service, and other service tasks; schedule new service, and export schedules
- **Driver Menu*** – View driver profile and logs, add a driver
- **Reports Menu** – Generate reports for your fleet, drivers, tax, and fuel management

*(*Client Administrator functions)*

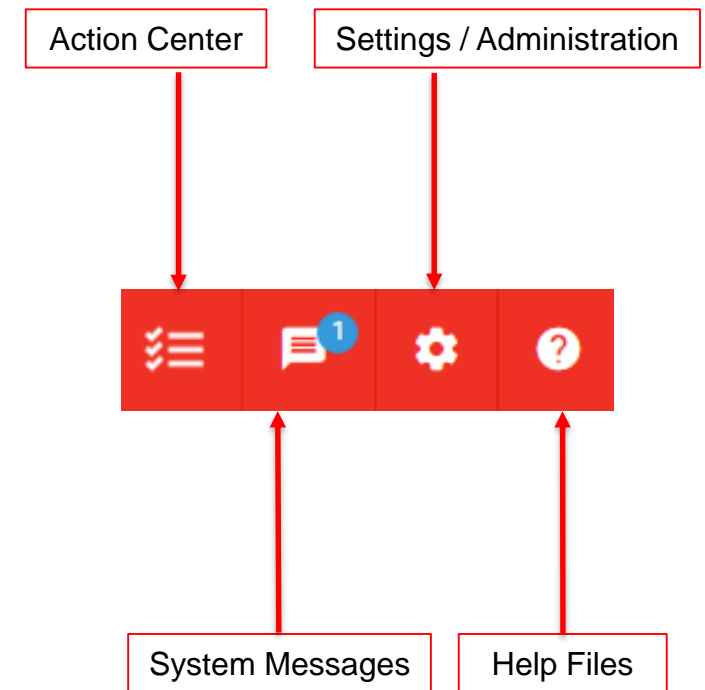

Depot – Menu Overview (continued)

- **Action Center Menu*** – Manage missing Weight Mileage Tax (WMT) configuration, assign unidentified driver trips, manage unassigned Ehubos
- **System Messages** – View system messages
- **Administration Menu*** – Access various settings to manage users, drivers, vehicles and assets, groups, geofences, tags, your organization, and Ehubos; set your default page, manage your profile (notifications and password), go to the mobile site, and logout
- **Help Files** – Search help files, access frequently asked questions (FAQs), view training videos, or contact EROAD

(*Client Administrator functions)

Learning Summary

In this training session, you:

- Viewed how the ELD interfaces with Depot
- Viewed the Depot menu structure

THANK YOU
