Learning Objectives

In this training session, you will:

- Open Manage Features on a vehicle
- Enable Driver Login, ELD, and Inspect features

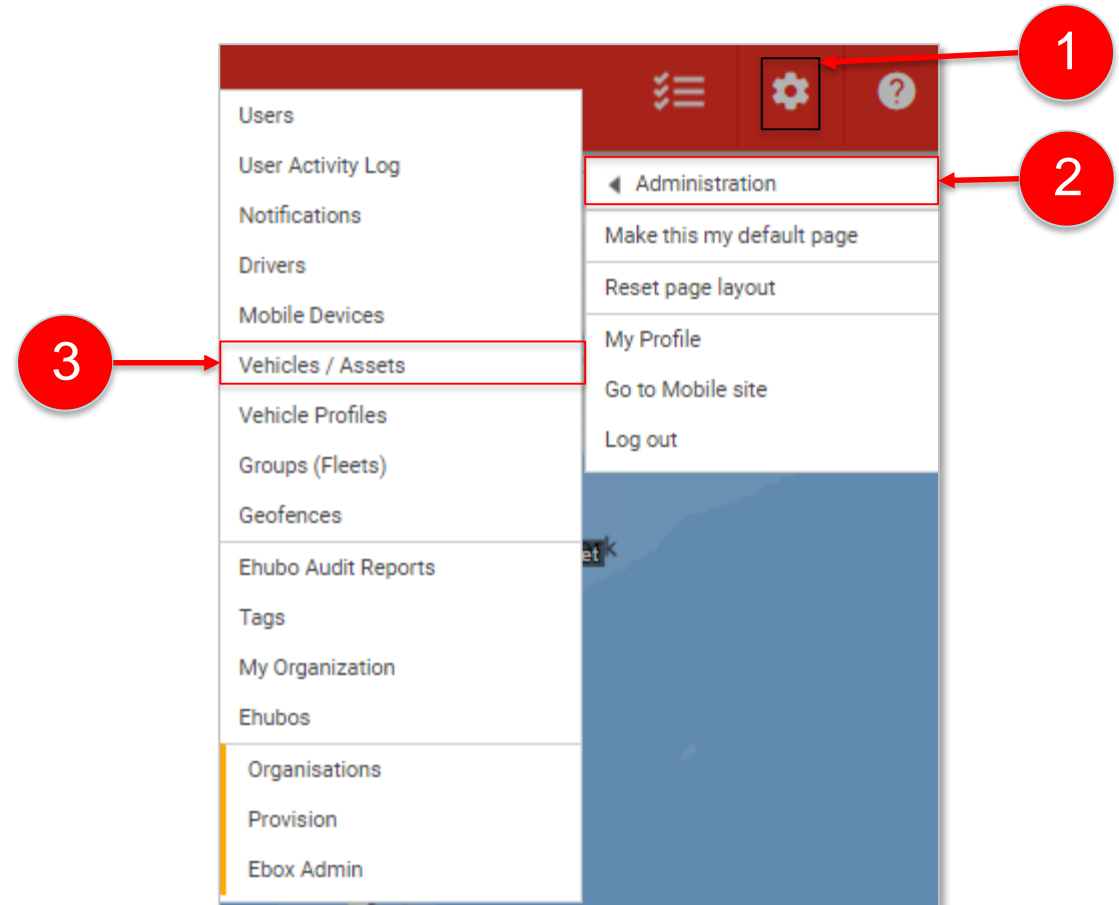

Depot Setup – Access Vehicles / Assets

Use Manage Features to enable certain features on the in-vehicle device.

Perform the following tasks to access the Administration menu to manage features on a vehicle.

1. Click the **Settings** icon.
2. Click the **Administration** menu.
3. Click the **Vehicles / Assets** submenu.

Depot Setup – Manage Features on a Vehicle

The Manage Vehicles / Assets screen appears. Many of the buttons at the top of the screen are disabled (grayed out) until you select one of the vehicles.

1. Click the check box beside the vehicle name.
2. Click the **Manage Features** button.

The screenshot shows the 'Manage Vehicles / Assets' interface. At the top, there are buttons for 'Export ELD Logs', 'Email ELD Logs', and 'Web Services ELD Logs Transfer', along with a '8 day view' dropdown. Below these are search and filter options: 'Search', 'All Vehicles', 'All products', and 'All Groups (Fleets)'. A 'Manage Features' button is highlighted with a red box and a red circle with the number '2'. To the right of this button are 'Share Selected', 'Add New Vehicle or Asset', and 'Export Vehicles' buttons. The main area is a table with columns: Vehicle Name (Unit No), Plate, Make/Model, Product, Plan, Tax Service, IFTA License, Shared, ELD Status, Inputs, and Template. The table contains several rows of vehicle data. The last row, 'AndrewG21', has its checkbox selected, indicated by a red circle with the number '1'.
